Eric Spangenberg
GIS Coordinator
Lewis & Clark County/City of Helena
316 N. Park Ave., Room 207
Helena, MT 59623

Dear Eric:

As the Land Information Lead representing the MSDI theme leads for Cadastral, Geodetic Control and Administrative Boundaries, I strongly support Lewis & Clark County's proposal to develop a feature class of Corner Recordation (CR) Locations and their FY 2017 request for MLIA funding. We look forward to working with you to ensure compatibility with an FGDC proposed CR database.

The 2016/2017 Montana Land Information Plan encourages data partners to apply for grant funds to collect local land records and control data that will develop and enhance administration of county records. Lewis & Clark's grant proposal meets this goal by organizing and documenting CR locations and making those easily discoverable which should reduce the time and effort required for future projects.

The Montana State Library looks forward to working with Lewis & Clark County.

Sincerely,

A handwritten signature in black ink that reads "Michael Fashoway". The signature is written in a cursive style.

Michael Fashoway
GIS Analyst/Land Information Lead
