Dear Mr. Yost,

As Montana's State Geographic Names Advisor, I recommend that the Domestic Names Committee approve the proposal from Review List 423 to name a stream in Sheridan County, Montana as Malcolm Creek.

The proposal is supported by the Sheridan county commissioners. The Fort Peck Tribal Land Board discussed the proposal and no objection was raised. I notified the state geographic information professionals organization and the state hydrography data group of the proposal and received a letter of support and a letter from the state Water Quality Division stating that they have no objections. The Fort Peck Tribal Land Board and the State Library sent requests for comment to be published in local newspapers and no comments were received. I sent requests for comments to the seventeen land owners along the stream and received five letters of support for the proposal.

The comments I received regarding the proposal are available online at [this location](#).

Sincerley yours,

Gerald J Daumiller
