## SOURCE: US Geological Survey NLCD files. Data from 30-meter Landsat thematic mapper (TM), 1986-1995. This data is intended to display land use patterns,rather than identification of the land use at any particular point. The source data being in raster format, no attempt has been made to summarize the types or limit the legend to the displayed data.

This map is to be used as a primary reference source and is not intended for use in site - specific planning. This is public information and may be interpreted by organizations, agencies, units of government, or others, based on needs; however,they are responsible for the appropriate application. Federal, State, or local regulatory bodies are not to reassign to the Natural Resource Information System any authority for the decisions they make.
