MONTANA Natural Resource Information System

Montana State Library — 1515 East 6th Avenue
Helena, Montana — (406) 444-5357

Mapscale 1: 400000 Scale In miles:

Date created: December 01, 2003

SOURCE:

US Geological Survey National Elevation Dataset (NED) files. NED has been developed by merging the highest resolution elevation data available for the United States into a seamless dataset. The slopes displayed are derived from the NED solely to illustrate $\,$ one application of the dataset. This slope data is intended to display slope patterns, rather than a particular point of slope.

This map is to be used as a primary reference source and is not intended for use in site - specific planning. This is public information and may be interpreted by organizations, agencies, units of government, or others, based on needs; however,they are responsible for the appropriate application. Federal, State, or local regulatory bodies are not to reassign to the $\label{thm:control_norm} \textbf{Natural Resource Information System any authority for the}$ decisions they make.
